WORK EXPERIENCE

- Elm** **May 2015 — Present**
Senior Business Analyst
Currently working as a Senior Business Analyst at Elm. My tasks includes:
- Conducting business requirement elicitation sessions with projects sponsors.
 - Documenting project scope in Scope of Work Documents.
 - Documenting elicited requirements in Business Requirement Specification Documents.
 - Validating requirements with project sponsors and business needs.
 - Identifying stakeholders for projects and communicating with these stakeholders.
 - Holding sizing meeting with Development and Quality Assurance teams.
 - Delivering product features that match clients' and end users' expectation and needs.
 - Handling 6+ clients in the projects I am working on.
- Elm** **October 2014 — April 2015**
Business Analyst
- Remal IT** **December 2012 — June 2014**
Project Manager
- Remal IT** **September 2012 — November 2012**
Game Requirements Analyst and Content Designer
- Remal IT** **June 2012 — August 2012**
Associate Project Manager

PROJECTS

Naql Portal:

Naql Portal is an electronic service for Public Transport Authority that automates the Authority's services like Organization Licenses, Operation Cards, and Driver Cards.

Efada Portal:

Efada provides electronic medical reports for users, individuals and sectors such as private companies and government sectors, as an electronic alternative to paper reports.

iThra Youth Portal:

iThra Youth aims to develop a socio-learning -collaborative Portal to enhance and extend the experience of its visitors, provide a space of communication and maintain and retain the visitors' interests in its programs and activities.

Areeb World:

Areeb World is an interactive virtual world that combines entertainment, education, and social networking.

Kammelna:

Kammelna is an online multi-player card game site, based on the famous local game "Baloot". It attracts 40K+ daily players, 150K+ monthly players.
